In response to the exploitation of big capital, a radical labor movement emerged in the American heartland. This movement was led by socialists and anarchists who believed that the working class needed to overthrow capitalism and create a more just society. The radical labor movement was often met with violence by the corporations and the government. However, it also won some important victories, such as the eight-hour workday and the right to unionize.

The class war between big capital and radical labor reached its peak in the early 20th century. During this time, there were several major strikes and uprisings by workers. The most famous of these was the Battle of Blair Mountain in West Virginia in 1921. This battle was the largest armed uprising in American history since the Civil War. It ended in a defeat for the workers, but it also showed the power of the labor movement.
